CLUB BADGE

& SPONSOR APPLICATION

EMBROIDERY

Embroidery is the more traditional way of applying a Club logo or crest and is usually best suited to smaller designs, using embroidery for a centre chest sponsor will make the shirt heavy and less rigid.

Therefore, we only recommend embroidery for your club badge or crest, or smaller sponsor logos. If you specify embroidery then an embroidery disk is required – we can arrange to make one for you but a charge will apply.

HEAT TRANSFER

Heat transfer logos are a great alternative to embroidery as they are lighter and more flexible. They are particularly good for more detailed logos or small lettering and are being used increasingly by sports performance brands, due to their lightweight properties and flexibility.

Please ensure that wash instructions are followed when washing a garment with heat applications on - failure to do so may result in fading or damaging the heat applied aspect. make one for you but a charge will apply.

SPONSOR

SIZING DETAILS

All sponsor logos will be sublimated or applied as heat pressed vinyl (single colour) or digital print (multicolour). Sizing for this is limited, please see below for maximum sizing on logos. Please ensure that wash instructions are followed when washing a garment with heat applications on - failure to do so may result in fading or damaging the sponsor.
